

# Technical Support- Windows- Part 1

## 1. I forgot my Windows password

User: I can't access my computer, I forgot my Windows login password.

Support: Provide instructions for resetting the password using a Microsoft account or recovery disk.

## 2. Blue Screen of Death (BSOD)

User: My PC displays a blue screen with an error code and constantly restarts.

Support: Instruct to start in Safe Mode, check for driver updates, and run hardware diagnostics.

## 3. Windows Update stuck

User: Windows Update is stuck at 0% when checking for updates.

Support: Instruct to clear the Software Distribution folder, restart update services, and use the Windows Update troubleshooter.

## 4. Printer won't print

User: My printer connected to Windows won't print, even though it's online.

Support: Check connections, reinstall the driver, set the default printer, and clear the print queue.

## 5. Wi-Fi disconnects frequently

User: My Wi-Fi connection drops randomly on Windows 10.

Support: Update network driver, adjust power settings, and reset network settings.
